

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	31 January 2025
Team ID	
Project Name	
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail Registration through LinkedIn
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3	Client Management	Add New Client View Client Details Edit Client Information Delete Client
FR-4	Meal Plan Management	Create Meal Plan Assign Meal Plan to Client Update Meal Plan Delete Meal Plan
FR-5	Nutrition Progress Tracking	Record Nutrition Progress View Progress History Update Progress Records
FR-6	Dashboard	Display User Dashboard View Client List Display Meal Plans Display Nutrition Statistics

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Simple, responsive and user-friendly interface for dietitians and individual users.
NFR-2	Security	Passwords encrypted using bcrypt, JWT authentication, secure REST APIs.

NFR-3	Reliability	Reliable database operations using MongoDB Atlas with proper error handling.
NFR-4	Performance	Fast API response, optimized backend, efficient database queries.
NFR-5	Availability	Frontend available through GitHub Pages and backend hosted on Render with high uptime.
NFR-6	Scalability	Supports adding more users, clients, meal plans, and nutrition records without major changes.
